What are the Program Learning Outcomes?

A learning outcome is a description of the knowledge, skills and abilities you will gain as you complete your coursework.

1. Demonstrate the ability to function as competent entry level professionals in a variety of settings, including traditional and non-traditional or emerging settings.
2. Analyze the impact of environmental, cultural, and socioeconomic influences on human development and occupations throughout the life span, while exhibiting an appreciation for diverse cultures, lifestyles and ideas.
3. Demonstrate values, attitudes, and behaviors congruent with the occupational therapy profession's values, philosophy, standards, and code of ethics.
4. Recognize the importance of, and the ability to effectively utilize occupations, with individuals, groups, and populations throughout the lifespan.
