

RN-BSN Re-Entry

1. Students seeking re-entry into the RN-BSN must be fully admitted to the University in *good academic standing*.
2. Re-entry into the RN-BSN program is not automatic and students are not guaranteed re-entry into the nursing program.
3. Students planning to return to a nursing course, in which they have received a grade of **D or F, or withdrawn with a (W) or a (WF)** must meet the following criteria:
 - a. Submit a Letter of Intent.
 - b. Provide evidence of current immunizations (PPD or chest x-ray, Hepatitis-B series, tetanus and other required immunizations per health care agencies).
 - c. Provide evidence of current CPR card must be certified by the American Heart Association in Child and Adult basic life support (BCLS) for health care providers. Current professional liability insurance and health insurance, and current criminal background check and drug screen.
4. A student who has withdrawn with a **(W)**, **(WF)** or failed with a **(D or F)** in any two (2) nursing courses in the RN-BSN program will be eligible for re-entry in the nursing program at MGA, should the conditions of the aforementioned **W, WF, D, or F** be a result of student hardship. Hardship circumstances should be discussed with the student's academic advisor at the time of unsuccessful course completion. Consideration of hardship circumstances will not be considered retroactively if not disclosed at the time of unsuccessful course completion. Re-entry into the RN-BSN program due to hardship circumstances will only be allowed on a single basis, and should the student experience additional **W, WF, D, or F** in any nursing courses, the student will not be allowed to continue in the program.
5. Re-entry is granted on a space available basis.
6. It may not be possible to re-admit all students who apply for readmission due to availability of clinical space and faculty resources. If there are more applicants than positions available in a nursing class, selection for readmission could include the following:
 - a. Nursing courses complete
 - b. Academic performance in nursing courses
 - c. Recorded academic misconduct and/or disruptive behavior
 - d. Written communication skills
7. All applications will be reviewed by the Admission, Recruitment and Retention Committee.
8. Students requesting re-entry should contact their assigned nursing advisor with any questions or concerns.
