We want your feedback to help make
Middle Georgia State University the best it can be!

The **National Survey of Student Engagement (NSSE)** collects information about first-year and senior students' participation in programs and activities that institutions provide for their learning and personal development. The results provide an estimate of how undergraduates spend their time and what they gain from attending college. MGA will use its NSSE data to identify aspects of the undergraduate experience inside and outside the classroom that can be improved through changes in policies and practice.

The sooner you participate, the more chances you will have to win great prizes, including:
