

Middle Georgia State University Academic Program Assessment

Instructions. This form collects assessment information for all academic programs at Middle Georgia State University. Program directors, chairs, or deans, should submit one form each year (or semester) for each academic program and for each site the academic program is offered (https://www.mga.edu/institutionalresearch/docs/Programs by Location.pdf) (i.e. if a program is offered in Macon and Cochran, separate assessments unique to the students enrolled at each location should be submitted). It is essential that improvements based on the assessment are also clearly identified and that the department keeps evidence of those improvements (i.e. new exams, syllabi, instructional tools) when an improvement is identified and implemented. Major changes to curriculum must go through the Academic Affairs process. Student Learning Outcomes (SLO) should match the Assessment Plan and Curriculum Maps found here: https://www.mga.edu/provost/program-histories.php; if they don't please contact OIRDS to update them. NOTE: All fields are required, please place NA or O in response field ONLY if SLO is not being utilized, otherwise full responses are required. Provide ALL necessary information requested to the fullest extent possible, such that a peer reviewer is not required to assume any information not provided. Utilize the provided assessment scoring rubric drafting guideline to evaluate your report prior to submission. https://www.mga.edu/institutionalresearch/docs/IEB Academic Program, Student Support, Advising Scoring Card.pdf

The two initiatives that influence operations are Complete College Georgia and USG High Impact Practice Initiative. The ASN program monitors program completion rates for each cohort and has initiated several measures to improve student retention. The Department of Nursing (DON) has hired a Nursing Success Coach to advise all re-entry nursing students to assist with consistent support. The DON has also implemented policy changes to assist students with degree completion. Students participate in clinical experiences at local hospitals. The DON is exploring study abroad opportunities for the ASN program for spring 2024.

*36.* Please provide a comprehensive narrative outlining how assessment results are utilized for continuous improvement in this field. Your narrative should address the past, present, and future aspects of assessment, with specific emphasis on how these results inform decision-making and drive improvement efforts.

The DON maintains a systematic plan of evaluation (SPE) for all programs as required by Accreditation Commission for Education in Nursing (ACEN). The SPE contains the assessment of the end of program student learning outcomes for the program as well as program outcomes which include NCLEX pass rates, employment, and program completion. The assessment occurs annually, and information is shared in the Fall with nursing faculty and with the DON Advisory Board in the spring. The ASN program faculty make recommendations for changes to the plan and activities based on trended data.
