## Data and Reporting of Student Learning

### SLO 1

7. SLO 1: What is the first Student Learning Outcome for this support area? Student learning outcomes should be stated in measurable terms (i.e. students will be able to.....)	70% of students using clinic services will indicate at least two benefits of scheduling appointments in advance.
8. SLO 1: What instrument (assessment type) was used to measure student's ability to demonstrate mastery of this learning outcome? (i.e. survey, participation, exam, assignment with rubric, speech, demonstration of ability)	During each patient encounter, the nurse practitioner will discuss the importance of scheduling appointments and will note the student's responses.
9. SLO 1: What target performance level would a student need to achieve on the assessment instrument to demonstrate mastery of this learning outcome? (i.e. 80% of all students will earn an average grade of 75% or better on.....).	70 percent
10. SLO 1: During this assessment cycle, what percent of the students who participated in this assessment demonstrated mastery of this learning outcome? (this should be a number between 0-100)	25
11. SLO 1: Evidence of changes based on an analysis of the results: What changes were implemented based on an analysis of the students' performance on these student learning outcomes?	SHS staff provided regular updates on clinic policies and scheduling, educated students on appointment scheduling, and posted signage on clinic doors. Due to shifts in clinic availability and Covid-related policies, this goal will be revisited.

**SLO 2**

12. SLO 2: What is the second Student Learning Outcome for this support area? Student learning outcomes should be stated in measurable terms (i.e. students will be able to.....)	Following a clinic visit, 75% of students will be able to verbally identify at least two preventative health behaviors.
13. SLO 2: What instrument (assessment type) was used to measure student's ability to demonstrate mastery of this learning outcome? (i.e. survey, participation, exam, assignment with rubric, speech, demonstration of ability)	Verbal feedback during each patient encounter.
14. SLO 2: What target performance level would a student need to achieve on the assessment instrument to demonstrate mastery of this learning outcome? (i.e. 80% of all students will earn an average grade of 75% or better on...).	75 percent
15. SLO 2: During this assessment cycle, what percent of the students who participated in this assessment demonstrated mastery of this learning outcome? (this should be a number between 0-100)	75
16. SLO 2: Evidence of changes based on an analysis of the results: What changes were implemented based on an analysis of the students' performance on these student learning outcomes?	Students consistently demonstrate the ability to verbalize healthy behaviors and prevention measures, but determining a method of more long-term follow up and education would be beneficial to maintain healthy trends and decrease recurrent health issues.

**SLO 3**

17. SLO 3: What is the third Student Learning Outcome for this support area? Student learning outcomes should be stated in measurable terms (i.e. students will be able to.....)	100% of students who seek clinic services will be educated on their patient rights and responsibilities.
18. SLO 3: What instrument (assessment type) was used to measure student's ability to demonstrate mastery of this learning outcome? (i.e. survey, participation, exam, assignment with rubric, speech, demonstration of ability)	During initial appointment, each student will be advised of their patient rights and responsibilities and will be provided a copy of those upon request.
19. SLO 3: What target performance level would a student need to achieve on the assessment instrument to demonstrate mastery of this learning outcome? (i.e. 80% of all students will earn an average grade of 75% or better on...).	100% of students will acknowledge understanding of their patient rights and responsibilities.
20. SLO 3: During this assessment cycle, what percent of the students who participated in this assessment demonstrated mastery of this learning outcome? (this should be a number between 0-100)	100
21. SLO 3: Evidence of changes based on an analysis of the results: What changes were implemented based on an analysis of the students' performance on these student learning outcomes?	100% of patients acknowledged understanding of their patient rights and responsibilities, as evidenced through notations in patient records and initial paperwork. With the shift to provision of telehealth services, we were able to adapt this to an electronic form and complete a verbal discussion. As all students acknowledge their understanding of their patient rights, no additional changes will be made to the existing process at this time, but will continue to be evaluated.

**SLO 4**

22. SLO 4: What is the fourth Student Learning Outcome for this support area? Student learning outcomes should be stated in measurable terms (i.e. students will be able to.....)
