## Open Box for Assessment Comments

<p>37. In this field, please document the overall use of assessment results for continuous improvement of this department area (consider the past, present, and future and specifically address these in your narrative).</p>	<p>In general, the department has seen positive growth. There are, however, opportunities for improvement in graduation rates and progression. The implementation of initiatives in the past year have yielded positive results, and those efforts should be continued and enhanced. The addition of the Public History concentration and a program coordinator for the Secondary Education concentration should assist in achieving further success. With significant growth in the secondary education concentration this past year (22.6%), we will plan, in the coming year, for the Coordinator to target this population in terms of improving progression by 1% (as measured by credit hours at graduation). This will be accomplished by holding a Fall and Spring meeting with the majors to help them ensure they are on track for applying in a timely manner to the Secondary Ed program in the School of Education and progressing through the program efficiently.</p>
