GREATNESS STARTS HERE...

"In the Department of Natural Sciences, our focus has always been on giving students high-quality, hands-on experience, from field courses that take students across the state to explore coastal ecosystems to undergraduate research opportunities that have resulted in student presentations at national meetings."

Dr. Dawn Sherry, Chair
Department of Natural Sciences

What can you do with a Biology Degree?

Research – research technician, research associates, professional programs that offer degrees in a research specialty

Healthcare – professional programs that offer training in medicine, pharmacy, veterinary medicine, physician assistants, optometry, dentistry, medical technology clinical laboratories
