

Course Substitution\Exception\Articulation Guidelines

(Use for Electives if applicable)

The course substitution process allows a student to substitute a transfer course for a required MGA course when there is a documented equivalency between the two. The course substitution process is guided by the following policy:

- MGA accept course(s) from institutional (national or regional) accredited colleges/universities, in limited circumstances credit can be awarded from alternative colleges/universities.
- Freshman and sophomore level courses (1000 or 2000) will not receive credit for a junior or senior level course (3000 or 4000) at the university.
- All course substitutions must be approved by the Chair and Dean in the department where the course content is taught.
- Approval of the substitution requested is only for course content. All course grade and credit hour requirements remain in effect. Example: Many departments require a grade of "C" in all major course work.

*In very rare instances, **Course Exceptions** may be made to course substitution policy. All requested exceptions must be approved by the appropriate, chair, dean, and the office of the Provost (see page 2).*

Course Substitution\Articulation Agreement Instructions:

- Complete course substitution form. For the Articulation Agreements, add the additional elective credits (refer to the actual Articulation Agreement for correct number of hours). Please see message in Note* below.
- Attach catalog descriptions for both the required MGA course and the course to be substituted. (Additional documentation may be required). **Obtain necessary approval signatures.**
- Submit signed form to the [Office of the Registrar](#) within two weeks of approval. Forms received without signatures will not be processed and will be returned to the student and school/department.

I acknowledge that **I have read, understand,** and will abide by the above named guidelines and **policy.**
