

Typical 1st Floor Layout

Legend

-  Pull station location
-  Fire extinguisher location
-  Exit route
-  Severe weather shelters

Safety Tips ★ Safety Tips ★ Safety Tips

> Become familiar with the fire extinguisher and pull station locations. If extinguisher is missing from it's posted location please report this to Resident Life immediately.

Know all exit routes

> If you hear the fire alarm, evacuate the building and assemble safely in the parking area where designated for your building on the Fire assembly diagram, and remain there until instructed it is safe to return to your room.

> If you hear a tornado siren, immediately move to the 1st floor unit and gather in those restrooms until an "All Clear" is announced.
