

December 2023 First Destination Survey Update – Updated December 22, 2023

617 students from registered graduation list were surveyed

- 45.4% response rate (submitted by student)
- 1.3% knowledge rate (submitted by staff after conversation with student)
- Total response/knowledge rate: 46.7%

Next Steps: A six-month survey will go out in April to those who submitted but said they were still searching. As time allows, some additional research and outreach via email will be conducted from January – April. The survey for May 2024 graduates will start to go out in early March. Some students who were set to graduate in December but did not will transition to the May 2024 survey or a future survey.

Outcomes

Top Employers - MGA December 2023 (hiring 2 or more students)	# hired
